

The Novitech Smart Industry Innovation

The **I3D** Industry 4.0 solution

Smart Glasses - Smart Helmet

Application of virtual and augmented reality in industrial smart workplaces

Why to invest ?

- Improve quality of work by online information support with Remote Assistance and Annotation
- Flexibility in changing/updating work instructions, fully documented worksteps
- Reduced administration, online documentation repository
- Reduce time of knowledge transfer to new workers in learning process
- Cost saving (duration, result and cost of work instructions)
- Handsfree, voice-controlled operational mode

I3D solution

- Easy to implement and customize, direct link to ERP system
- Open source SW
- Quick return on investment (6 months)
